The Ridgeline is stacked with power and agility to turn any trip into an adventure, whether you’re forging a mountain byway or cruising down the open highway.

Beyond the force of nature.

Ultimate Power
• Powerful 3.5-liter, i-VTEC® V-6 engine
• 6-speed automatic transmission
• 280 hp¹ and 262 lb-ft of torque¹
• 25-mpg highway rating *

Ridgeline AWD RTL-T shown in Lunar Silver Metallic with accessory roof rails and running boards.

Honda reminds you to properly secure cargo items.

¹18 city/25 highway/21 combined mpg rating for AWD models. Based on 2019 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.
Ridgeline dominates the road with a smooth ride, incredibly sharp handling and a spacious cargo bed for all your gear.*

The superior pickup.

*Honda reminds you to properly secure cargo items.

Tackle virtually any terrain with the push of a button. Ascend a sandy hill. Drive up a snowy mountain pass. Navigate a rain-soaked dirt road: Nothing intimidates the Ridgeline driver’s confidence.

- Intelligent Traction Management
- Fully independent multi-link rear suspension
- Rigid lightweight unibody design
- Available intelligent Variable Torque Management™ AWD System

† Snow mode only on 2WD models. Snow, Mud and Sand modes on AWD models.

*Ridgeline RTL-E shown in Modern Steel Metallic with accessory cargo net. Opposite page: Ridgeline AWD RTL-T shown in Lunar Silver Metallic with accessory roof rails and running boards.
We didn’t set out to build a typical pickup truck. Instead, we designed a capable pickup that could only come from Honda, the stylish yet smart Ridgeline. With a roomy five-passenger cabin and the most passenger volume in its class, it surpasses standard in every way.

Innovation for miles.

Ridgeline RTL-E shown in Modern Steel Metallic with Black Leather.

Honda reminds you to properly secure cargo items.

Smart Features
• Dual-action tailgate
• Lockable In-Bed Trunk®
• Truck-bed power outlet*
• Truck-bed audio system*

*Available feature. Please refer to specs for actual trim application.
The Ridgeline is thoughtfully crafted to provide a unique, modern truck experience. Its spacious, comfortable cabin is complemented with upscale amenities and an array of available technologies at your fingertips.

Intuitive Interior
- Remote engine start*
- Tri-zone automatic climate control system*
- Android Auto™ integration*
- Apple CarPlay™ integration*
- Heated steering wheel*

*Available feature. Please refer to specs for actual trim application.
More than a truck bed.

Innovation in the Ridgeline goes way beyond the cabin. Each element pushes the limit of what a truck can do to advance its function and expand your possibilities.

**Truck-Bed Audio System**
- Six exciters in the truck bed walls allow for maximum sound
- Bluetooth® compatible
- Control from your smartphone

*Available feature. Please refer to specs for actual trim application.

**In-Bed Trunk**
- Only pickup with a lockable trunk
- 7.3 cubic feet of secure storage
- Use as a cooler or to store your dirty gear
- Drain plug for quick water removal and easy cleaning

**Dual-Action Tailgate**
- Easy access to the In-Bed Trunk
- Open tailgate to the side or straight down
- No protruding wheelwells
- Haul large, flat items like sheets of plywood

**Maximum Versatility**
- 60/40 split lift-up rear seat with underseat storage
- Eight heavy-duty truck bed tie-down cleats rated up to 350 lbs
- Multi-functional center console storage
- 12-volt power outlets in the front and center consoles

Honda reminds you to properly secure cargo items.

Nexus 5X is not included.

† Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

Ridgeline RTL-E shown in Obsidian Blue Pearl.

Honda’s innovation is not limited to the cabin. Each element pushes the limit of what a truck can do to advance its function and expand your possibilities.
Open your eyes. The Ridgeline is equipped to take you places you’ve never seen. Head out for an adventurous mountain trek or a cross-country escape. Along the way, the modern Ridgeline is always looking out for you, with innovations to improve stability, handling and visibility.

Technology Inside and Out
• Multi-angle rearview camera
• Honda LaneWatch™
• LED low-beam headlights
• Blind Spot Information System (BSI)™ with Cross Traffic Monitor™
*Available feature. Please refer to specs for actual trim application.
Even the most attentive of drivers can miss things. That’s why the Ridgeline is equipped with available Honda Sensing, a full suite of safety and driver-assistive technologies designed to assist and help protect you and your passengers.

**Built for what-if.**

**Collision Mitigation Braking System (CMBS)**
CMBS can help bring your Ridgeline to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.*

**Road Departure Mitigation System (RDM)**
RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you return to your lane or provide braking to help keep from leaving the roadway entirely.*

**Lane Keeping Assist System (LKAS)**
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep the Ridgeline centered in a detected lane.*

**Adaptive Cruise Control (ACC)**
ACC helps you maintain a set following interval behind detected vehicles for highway driving.*
What happens when you take a sophisticated pickup

Premium Black Edition might be the most refined pickup ever.

- Red interior ambient LED lighting in footwells, door pulls and center front beverage holder
- Gloss black finish on wheels, window trim and grille
- Exclusive black and red highlights.

Driver remains responsible for safely operating vehicle and avoiding collisions. System designed to mitigate crash forces. System operation affected by extreme interior heat. System accuracy will vary based on weather, speed and other factors. ACC should not be used in heavy traffic, poor weather or on winding roads. ACC only includes a limited braking function; driver remains responsible for slowing or stopping the vehicle to avoid a collision.

ACC cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. ACC only includes a limited braking function; driver remains responsible for slowing or stopping the vehicle to avoid a collision.
